Aufgabe 2 does not work

#3 - 26.03.2025 22:45 - Avishan Sharafi

- Datei *dynamic\_exercises.js* wurde hinzugefügt

Hello,

address of js file in my machine  
C:\Users\avish\Desktop\Birte\studifinder\input\files-studifinder\js

problem:Java script file did not work properly.

In file *dynamic\_exercises.js*, the (Kontrolle) button relies on a function called *isCommutativeIdentical*, but this function is not defined anywhere. That is why when we press the button in Moodle website there is no output. I redefine the function properly.

please just upload the attached file in your path in the machine or server files.  
then It should work correctly.  
For your information about the problem::  
I just attached the problem's screenshot I noticed when I probe JS code in website to find the problem in the browser. The error is visible in attached file.  
  
with regards
