Beschreibung			
Here are the files: https://uni-paderborn.sciebo.de/apps/files/files/886150890?dir=/studiVEMINT/Avishan/output_22082025			
Upload the courses in old Moodle https://mdl.math.uni-paderborn.de/?redirect=0			
How to do: clicking on the course you want to reupload -> more -> course reuse -> restore -> choose the right file (right name) -> restore/continue -> go down! to upload in this course and then the second button (delete and reuse) and continue -> include enrolment methods: yes -> continue till the end			
Check if pdf works, if there are qr codes and links, if tasks (Aufgaben) work and the solution (Lösung anzeigen) can be seen if you click on it, if GeoGebra-Applets work and can be downloaded (they are just in a few chapters) check Symbolerklärung if everything looks nice, scroll through if you realise any errors			
Check in those chapters:			
LE02 Bruchrechnung			
LE04 Elementare Gleichungen			
LE06 Dreiecksgeometrie			
LE08 Intro Höhere Funktionen			
LE11 Intro Lineare Gleichungssysteme			
LE12 Einführung Vektoren
